REMARKS ON AMENDMENT "A"

Commissioner for Patents  
P. O. Box 1450  
Alexandria, VA 22313-1450

Sir:

In conjunction with the filing of the present application, and in response to the Office Action of May 23, 2005, having a reply being due by August 23, 2005, please amend the above-identified application as provided and consider the following remarks as follows:

REMARKS

There was a clerical error in the initial filing of the present patent application. Several documents, including the transmittal letters, Application Data sheets, specification, claims and drawings, were mixed with a concurrently filed application. The identity of the inventor, title, and drawings were incorrect.

The Office Action of May 23, 2005 objects to the drawings and requests an election requirement. However, these objections and rejections are not based upon the actual application due to the clerical error. Applicant responds to the present Office Action by submitting the proper documents and information for the application. Applicant has been working with the Examiner for the concurrently filed application in order to resolve the problem. The present Amendment A is

being submitted in accordance with the procedures being used to correct the concurrently filed application with the other Examiner.

Applicant respectfully submits the present Amendment "A" to respond to the Office Action and to correct the clerical error. It is important to note that all documents and information were received by the U.S. Patent and Trademark Office in a timely manner; however, the documents were just not correctly labeled. A new Declaration/Oath and a new Application Data Sheet are provided herewith for further clarification.

Applicant notes that the present application having U.S. Serial No. 10/687115 for a cluster lamp by Hung-Chi TSAI. The documents and information have been mixed with another concurrently filed application. The other mixed application is U.S. Serial No. 10/688185 for a motor by Cheng-Fang HSIAO.

The present Amendment "A" corrects the clerical error by now including the proper drawings and application information for the cluster lamp (10/687115). A new Declaration/Oath with the proper inventor is also now included. Although, it is important to note that the correct Declaration was timely filed in the other file. A new Application Data Sheet also corrects the other biographical information.

The present Amendment "A" has been entered for the purpose of placing the application into a proper format for consideration by the Examiner and in response to the rejections by the Examiner. Applicant respectfully contends that an election requirement may no longer be warranted due to the corrected subject matter of the present invention for a cluster lamp. No new matter has been added by these amendments because the matter was already filed, but associated with the wrong file. In any case, a new Declaration/Oath is enclosed herewith having the correct information. Any

additional late charges or fees may be paid by charging Applicant's attorney on Deposit Account 080879.

Please notify Applicant's attorney of any additional requirements for correcting the clerical error and switch of documents between the two files. If any adjustment to the official filing date is required, then please provide adequate notice.

Additionally, a Request for Corrected Filing Receipt is being filed concurrently herewith.

The present Amendment "A" to correct the clerical error has been submitted according to the recommendations of the Examiner of the concurrently filed and switched application.

Applicant respectfully requests that the present Amendment be entered prior to an initial Official Action on the present application.

Respectfully submitted,

7-19-05
